

Vacations during the school year

Family trips during the school year are discouraged for academic reasons. Third, fourth, and fifth graders, in particular, need to be in school during the New Jersey ASK tests in May. Students will be required to make up their missed assignments upon their return to school. Please see the District handbook for more guidelines.

Please notify the teacher at least one week in advance of any intended vacation.

Visits to school

We are always happy to host parents and families in our classrooms, but we do ask that arrangements be made in advance with the teacher.

Forgotten books, lunch money, lunches, musical instruments can be left in the office. We will see to it that they are delivered to the student.

Parents are asked to refrain from accompanying children to the classroom door. Arrival/dismissal is a busy time throughout the school. It is usually not a convenient time for conferencing with teachers, as they may have assigned duties, meetings, or other scheduled appointments.
